

Electrical Outlet/Receptacle Information: Uruguay

Type F Electrical Outlet

Type F Electrical Receptacle

Information on the Type F Schuko plug Electrical Adapter Plug and Electrical Outlet

The Type F plug and outlet is much like the Type E, except it has two earth clips on the side rather than a female earth contact. It is commonly known as a "Schuko" plug, from the invented German word "Schukostecker" which means "protective contact plug."

Countries Using Type F Electric Plug

Algeria, American Samoa, Aruba, Austria, Azores, Balearic Islands, Bosnia, Bulgaria, Cape Verde, Chad, Croatia, El Salvador, Finland, France, Germany, Greece, Guinea, Hungary, Iceland, Indonesia, Italy, Jordan, Korea, Laos, Luxembourg, Madeira, Monaco, Montenegro, Mozambique, Myanmar, Netherlands, Netherlands Antilles, Niger, Norway, Portugal, Romania, Serbia, Spain, Suriname, Sweden, Turkey, **Uruguay**.

Information on The Type F Electrical Outlet

The "Schuko" plug and receptacle with side grounding contacts has a connection system which is symmetrical, allowing the live and neutral to be reversed. Type F receptacles will also accept Type C and Type E plugs.

Type **E** is becoming more common as a result of computer use. *Neutral and line wires are reversed from that used in Australia and elsewhere
